## Message from the ASAC President

Happy 2023 and blessings for better health and happiness with prosperity, in everything you set your mind to. A new year begins; year 23 of the new century. During this new year I will serve as President of this great organization Association of Senators of the Americas and the Caribbean. For this year of service, I will be accompanied, according to my discretion, by the best talent of Senators, the most committed group and the Board of Directors that will have the best participation in the development of the Action Plan that we have designed together and our Vice President Zoila has compiled.

In order for “We are all ASAC”, (our motto 2023) the commitment, participation and communication of all the Senators of the ASAC member Senates will be necessary.

We want ASAC message to be heard from Argentina to Canada, that all Senators participating in the first year of Friends of ASAC renew their participation; that our Web page is the most active and dynamic in the history of our organization; that the Communication Committee keep alive and constantly the activities and events that

**Keep going.....**

## ...Comes

we will celebrate; that the participation in the Conference in Santa Marta and in the Meeting in Cochabamba be the most numerous and ever seen; that all Area Directors can visit all their assigned countries; that the Program Directors on October 31 have developed their action plan to 100%; that with the dynamism and initiative of our Treasurer, ideas of collections are developed that make our finances self-sustaining and that our history 2023 remains as a memorabilia in the dynamic management of our Secretary.

Our work will be seen by all the Senates of the world through the management of our ambassadors and I will have peace of mind in my efforts by the advice of my Advisory Committee of past Presidents and the Audit Committee 2023 and the Board of Directors of my immediate past President Joy Brathwaite.

We will be evaluating the result of this work in May at the Conference and in the first week of December, but we need you, the Senators of the Americas and the Caribbean, day by day to be evaluating us and informing us of everything that you think We can improve, because our Advisor and our Vice President will be very aware of this.

May God and the Virgin accompany us all in these 365 days of dedication and enlighten us along the path that you have chosen us to follow.

President 2023
