We believe:

That faith in God gives meaning and purpose to human life;

That the brotherhood of man transcends the sovereignty of nations;

That economic justice can best be won by free men through free enterprise;

That government should be of laws rather than of men;

That earth's great treasure lies in human personality;

And that service to humanity is the

best work of life.

Points to Ponder

If electricity come from electrons, does morality come from morans?

Does pushing the elevator button more than once make it arrive faster?

Please feel free to submit future entries for Points to Ponder and if you have a comment we will include in a future issue.
